

Together We Can Youth Mentorship Program

Become a mentor!

The program

Together We Can Youth Mentorship Program is a free program that supports high-risk Black, African, and Caribbean youth, ages 9–25, by helping them to make healthy and safe life choices.

The program aims to help improve the emotional well-being and support the positive development of its youth participants by increasing access to consistent, caring adults who will support them to pursue and achieve goals and successful outcomes related to:

- Education
- Employment or entrepreneurship
- Civic engagement
- Leadership
- Cultural identity

The program's activities are culturally focused with an anti-Black racism lens to assist youth in developing positive life skills, resiliency, and overcoming barriers to their success including systemic racism. Activities include:

- Group mentoring with peers
- Workshops, events, and field trips
- Cultural projects
- Community activities
- Academic and employment support

The overall goal of this program is to eliminate outcome disparities seen in areas such as high school graduation rates, post-secondary education attendance, employment rates, and to improve the emotional well-being of its youth participants.

The Youth Mentorship Program aims to achieve this by providing:

- A sense of belonging and community
- A strong cultural identity
- Advocacy skills to aid in increasing and encouraging civic engagement and leadership skills
